**Does your dog have his own agenda?** Do you have the relationship and respect that you want from your dog, or do you find yourself frustrated by problem behaviors?

**Do you wish your dog had better manners?** Can you take your dog anywhere and count on her to behave, or does she forget all her training in the presence of distractions?

**Do you make excuses for your dog?**

“Oh, he's too excited to behave . . .”

“He can never resist jumping up on people because he's so friendly . . .”

**Has your cute puppy become an out-of-control adolescent?**
